

LEGAL&YOU

Life can be complicated – but with Legal&Tax by your side, you never have to feel alone.

Life is full of unexpected turns and surprises. You can take the same route to work each day and then suddenly, out of the blue, a robot goes down, and a trip that usually takes you 20 minutes now takes two hours. Or, you may have been working in the same job for 20 years, until one day, out of nowhere, you're told you're being dismissed. While we can't do much to help with the traffic, the good news is we can help if you've lost your job without fair warning or reason.

Legal&Tax is all about giving our members the knowledge and confidence to protect themselves when life's unexpected surprises and turns arise. Whether you need a lawyer to advise you, a tax practitioner to help you or a debt counsellor to set you on the path to financial awareness, Legal&Tax has a team of experts to support you through life's difficult and sometimes scary events.
